SINGLE GARAGES

Amish-Built Single Car Garages: Space, Style, and Security Combined

Are you facing a constant battle for space in your property? Is your car left braving the elements while your garage overflows with stored belongings? It's time to re-imagine your space with our meticulously crafted Amish-built Single Car Garages. These garages offer more than just a shelter for your vehicles; they are your key to unlocking additional storage and enhancing your property's value.

Additional Options Available.

SINGLE GARAGES

Our Single Car Garages are thoughtfully designed to seamlessly fit on various plot sizes, making them an ideal choice even for compact spaces. Choose from a diverse range of designs that cater to your specific needs. Opt for the timeless A-frame style, the capacious High Barn, or the versatile Garden Shed. Each style is a testament to Amish craftsmanship, boasting durability, functionality, and aesthetics.

Beyond safeguarding your vehicles, these garages become an extension of your property, providing much-needed storage, style, and security. Say goodbye to cluttered spaces and hello to an organized, visually appealing environment. With our Amish-built Single Car Garages, you can transform your property while ensuring your vehicles and belongings remain safe and protected.

TWO STORY

GAMBREL

DOUBLE GARAGES

Ample Space for Modern Family Living

In today's fast-paced world, families often find themselves juggling multiple vehicles and an ever-growing collection of belongings. That's where our double wide garages, also known as two-car garages, come into play. These spacious structures are designed to meet the demands of modern family life, providing ample room for not just one but two vehicles, plus additional storage for your belongings.

Additional Options Available.

DOUBLE GARAGES

This garage design draws inspiration from the trusted A-Frame shed design. Our Double Wide Garages come equipped with a side entry door for convenient access without needing to use the garage doors. On the sides and back, you'll find vertical slider windows complete with screens and window trim, all included in the package. Experience the convenience and versatility of our Double Wide Garages, designed to enhance your family's living experience.

Please note that the double wide garage requires a substantially larger horizontal open space on your property. We recommend this option if you have the necessary space available. If your primary goal is additional storage, consider our two-story model, provided you have the room to build vertically.

DOUBLE WIDE

The Storage Solution for Modern Family Life

- 4" x 4" Pressure Treated Runners
- 2" x 4" Pressure Treated Floor Joists, 8" OC
