STANDARD FEATURES

At Trailside Structures, we are dedicated to helping you provide the best possible housing for your dogs and puppies, whether for residential or commercial purposes. We understand the commitment required to nurture healthy and happy canines, and we have designed our dog kennels with efficiency, safety, and the overall health of your pets in mind.

30 X 60

DOUBLE-WIDE KENNEL

Cedar, MI

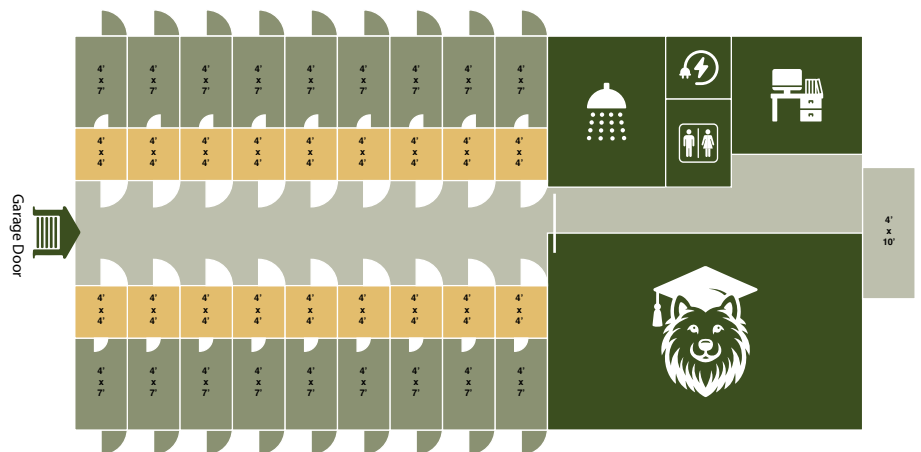

30 X 60 DOUBLE-WIDE KENNEL

Cedar, MI

30 X 60 DOUBLE-WIDE KENNEL

- Metal Siding Black Textured
- White Trim
- Black Metal Roof
- Radiant Floor Heat
- Bathroom Vanity & Toilet
- Spick Drains Inside & Out
- Deluxe Dog Doors
- S.S. Trim Kits
- Sloped Floors Inside & Out
- 72" Aluminum Cabinet with Sink & Counter
- 4' H Solid Dividers Inside
- 6' H Solid Dividers Outside
- 4" Raised Floors in Kennels
- 7' x 7' Overhead Door
- 7/12 Pitch Hinged Roof

FEATURES ON THIS CUSTOM BUILT KENNEL:

Metal Roof - Our roofs are insulated, and have multiple layers including house wrap to give you superior long lasting protection.

Metal Siding - Metal siding offers long-lasting durability, low maintenance, energy efficiency fire resistance, and modern curb appeal.

Lixit Water Lines - combining this feature with in-floor drains in the kennel boxes has been a huge hit.

6' High Norlock Divider Panels - Avoid high jumpers from accessing other dog's areas.

Raised Floor Inside - This kennel has raised floor inside pens, but ground level runs. To compensate, steps have been built outside to make it easier for dogs.

Timber Frame Porch - Adding a timber frame porch gives your kennel an eye-catching accent

Overhead Garage Door - Unloading supplies and food just got easier. No more worries about the new equipment fitting in the door. A garage door solves lots of problems.

Restrooms - No more wasted time running to the house to use the restroom! This is a wonderful convenience!

Spick Drain - This kennel has slanted kennel flooring which helps drain all wash down water, hair, and waste right out of the kennel!

Radiant Floor Heat System - Consistent, even heat throughout the kennel without the stuffiness that some heating systems can bring!

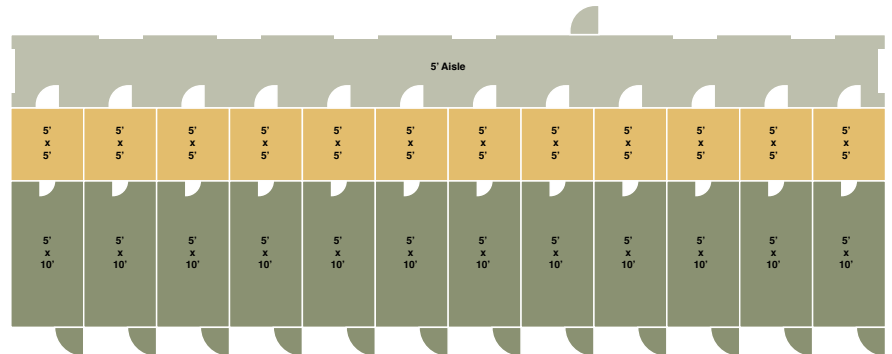

20 X 60 TWELVE RUN KENNEL

Danville, PA

20 X 60 12 RUN KENNEL

- Light Stone Metal Siding
- Colonial Red Trim
- White Metal Roof
- 8 - 36" x 40" Double Hung Windows
- 24" Dog Doors
- On Demand Water Heater
- Tan PVC Run Flooring
- White Glassboard Run Wall
- Welded Wire Fencing Panels

FEATURES ON THIS CUSTOM BUILT KENNEL:

Metal Roof - Our roofs are insulated, and have multiple layers including house wrap to give you superior long lasting protection

24" Dog Doors - w/ dual swing hinges & soft close. Easiest dog door to learn how to use! Ideal for boarding kennels & rescues

OnDemand Water Heater - Hot & cold water in the kennel is a wonderful thing!

40" Floor Drains - We highly recommend these in each kennel as well in all main areas

Electrical Package - lights, temp control, whelping nests, and more - You need this.

16" Exhaust Fan - best option for keeping fresh air moving through the kennel.

5' High Divider Panels w/Welded Wire Topper - Tall to prevent escape artists. The wire topper allows for more air movement.

Pre-Hung 9-Lite Door - a draft free entry door is worth the upgrade!

Double Feeder Bowls - These can be installed in door or side panel of fencing, depending on preference - We build the panels to work for you.

23 X 60

NINE RUN KENNEL

East Earl, PA

23 X 60

NINE RUN KENNEL

East Earl, PA

23 X 60

9 RUN KENNEL

with 10 x 15 Office

- Dark Gray Siding
- Black Trim
- Black Metal Roof
- 6 - 34 x 40 Dbl. Hung Windows
- 2 - 20x40 Slider Windows
- Gray PVC Run Flooring
- White Glassboard Run Wall
- Powder Coated Aluminum Fencing

FEATURES ON THIS CUSTOM BUILT KENNEL:

Metal Roof - Our roofs are insulated, and have multiple layers including house wrap to give you superior long lasting protection

Canine Dog Doors - Dual swing hinges & soft close. Easiest dog door to learn how to use! Ideal for boarding kennels & rescues

Raised Floor Inside - This kennel has raised floor inside pens, but ground level runs. To compensate, steps have been built outside to make it easier for dogs.

Raised Weaning Pens in Main Area - This allows you to interact with the pups that need you the most to give them the best start and to keep an eye on any that might be struggling.

EZS Whelping Nests x 5 - Give your puppies a better chance of survival!

Electric Hot Water Heater - 20 Gal. Combination Humidifier & Dehumidifier

40" Floor Drains - We highly recommend these in each kennel as well in all main areas.

Air Flow - This kennel uses a 16" exhaust fan, 3 ceiling fans, and a 30,000 BTU mini split air conditioner.

6' High Norlock Divider Panels - Avoid high jumpers from accessing other dog's areas.

Lixit Water Lines - combining this feature with in-floor drains in the kennel boxes has been a huge hit.

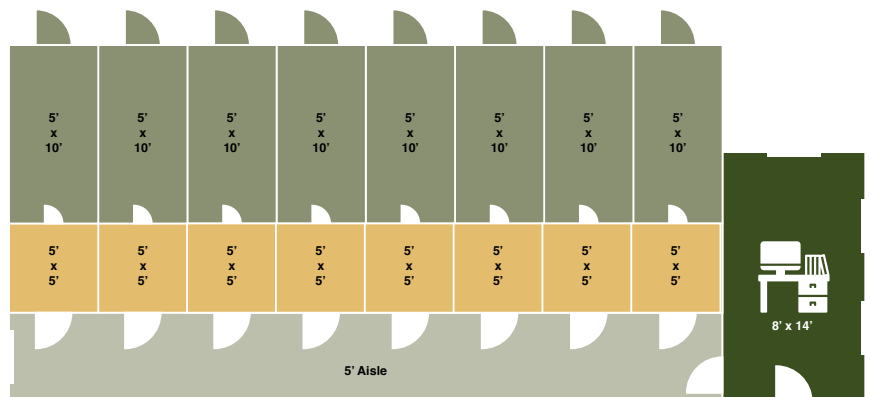

Gutters & Downspouts - Keep your kennel looking better for longer.

20 X 48 EIGHT RUN KENNEL

20 X 48 8 RUN KENNEL

- Clay Metal Siding
- Bronze Trim
- Bronze Metal Roof
- 1 - 24 x 36 Double Hung Windows
- 5 - 36 x 36 Slider Windows
- 18,000 BTU Mini Split
- Water Heater
- Raised Floor
- Tan PVC Run Flooring
- 6' Hinged Overhangs
- 6 Gauge Welded Wire Fencing Panels

FEATURES ON THIS CUSTOM BUILT KENNEL:

Metal Roof - Our roofs are insulated, and have multiple layers including house wrap to give you superior long lasting protection

Raised Dog Floor - make it easier to interact and care for your dogs. Also makes it easier to keep clean, and allows for heated floor.

On Demand Water Heater - Hot & cold water in the kennel is a wonderful thing!

40" Floor Drains - We highly recommend these in each kennel as well in all main areas

Electrical Package - lights, temp control, whelping nests, and more - You need this.

16" Exhaust Fan & 4 Ceiling Fans - best option for keeping fresh air moving through the kennel.

2' High Divider Panels w/Welded Wire - The lower solid divider panels is great for smaller dogs. It allows for the comfort of having their own space, but allows for a lot of air flow.

Radiant Floor Heat System - Consistent, even heat throughout the kennel without the stuffiness that some heating systems can bring!

Double Feeder Bowls - These can be installed in door or side panel of fencing, depending on preference - We build the panels to work for you.

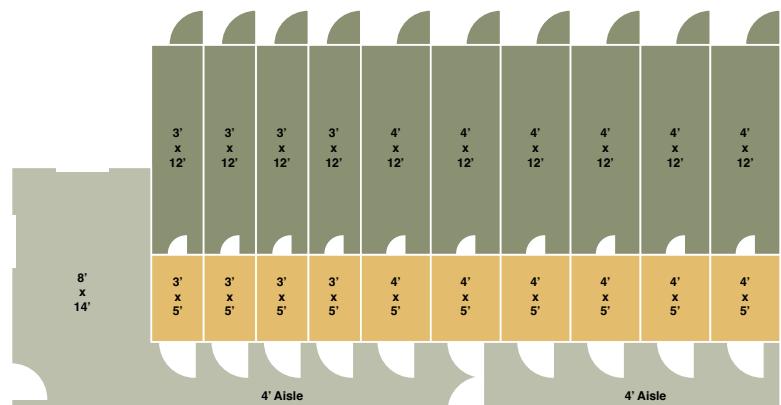

14 X 44 TEN RUN KENNEL

Christiana, PA

14 X 44 10 RUN KENNEL

- Clay Metal Siding
- White Trim
- Bronze Metal Roof
- 6 - 36 x 36 Dbl. Hung Sliders
- 3 - 20 x 40 Dbl. Hung Sliders
- 1- 24 x 36 Dbl. Hung Slider
- 24" Dog Doors
- LP Tankless Water Heater
- Gray PVC Run Flooring
- Raised Kennel Floor
- Radiant Floor Heat System
- 5 Whelping Nests
- 24 x 72 Aluminum Base Cabinet
- Welded Wire Fencing Panels
- Dormer on Front
- 5 Guillotine Dog Door

FEATURES ON THIS CUSTOM BUILT KENNEL:

Radiant Floor Heat System - Consistent, even heat throughout the kennel without the stuffiness that some heating systems can bring!

Whelping Nests - These are a very popular item that are an easy and safe solution to keeping the pups warm without the mom getting overheated.

L-P Tankless Water Heater - Our EZ tankless system gives you access to hot water when you need it.

40" Floor Drains - We highly recommend these in each kennel as well in all main areas

Electrical Package - Lights, temp control, whelping nests, and more - You need this.

15,000 BTU AC Unit - This unit does a good job at keeping the kennel comfortable for you and your dogs even on hot summer days.

Dormer - Make your kennel attractive and less utilitarian - so it can enhance the look of your property.

6 Gauge Welded Wire - The 2 x 4 welded wire is a very popular choice which works well for most breeds. Strong, but still economical

4' Norlock Dividers - This height allows for even larger dogs to have a safe space without being bullied by the dog in the next space, while still allowing good airflow above the kennels

20 X 40

SEVEN RUN KENNEL

Christiana, PA

20 X 40

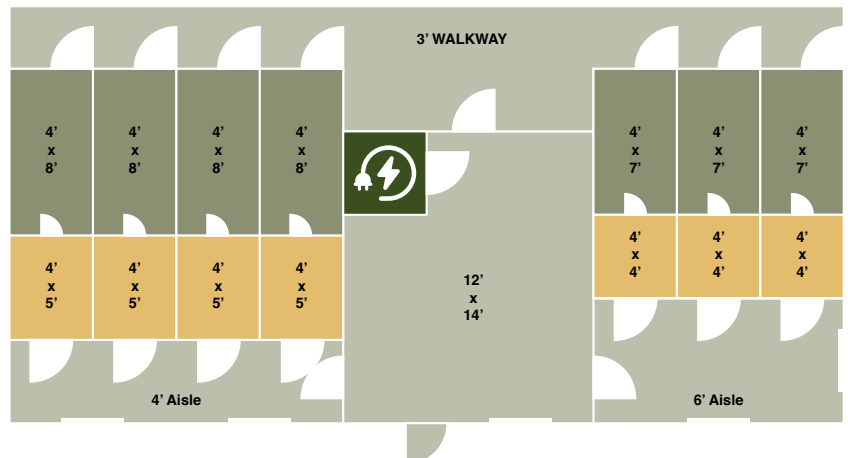

7 RUN KENNEL

with 6 Extended Run Floors

1 - 36,000 BTU Mini Split

FEATURES ON THIS CUSTOM BUILT KENNEL:

Gentle Step Flooring In Kennel - Can be custom cut to provide areas to lay on, as well as diamond shape cutouts to allow for waste to fall through and easy wash-down.

Interior Raised Floor - Floors were raised 16 in, which makes caring for the dogs much easier! It also allowed for sloped flooring and a spick drain.

Insulation - We always insulate our kennels. This kennel has walls (R-20), rafters (R-38), and floor (R-30)

Restrooms - No more wasted time running to the house to use the restroom! This is a wonderful convenience!

Spick Drain - Under the gentle step flooring is an aluminum slanted floor which drains all wash down water, hair, and waste right out of the kennel! This is a huge time saver!

Washer/Dryer Hookup - This is a must for a large kennel, or boarding kennel. So much easier to keep everything clean.

Steps in Run Area - This kennel was designed with steps for the dogs exiting by their dog doors, (see diagram) inside the U-shaped kennel is a large area for the dogs to play outside.

CUSTOM FEATURES

Standard kennel door width is 24". This can be changed as needed. Some doors swing 90° - other styles do not by default. If you need a certain direction for it to swing, or need it to swing only one direction, let us know.

Heavy-duty hinges and latches - while each style of fencing has a default latch style, if you have a preference for a certain style, talk to us. When at all possible, we will try our best to make it work. Latch height can also be customized.

Many of our feeders and some watering options need cutouts built into the fencing panels or doors. We have

recommendations, but the decision is yours, just let us know what you prefer.

Our team can help with taking measurements and layout planning, whether you are retrofitting for new panels, or just trying to plan the best way to make the most use of your space.

Vinyl Coating is a very attractive option that is available for chain-link fencing. Arched tops (upward or downward), with or without decorative finials are available for some fencing panel Solid lower panels for puppy safety is available for all fencing panels

Powder-coating with many color options is available for most fencing panels, some at no up-charge.

All panels, dividers, and fencing can be custom-sized to fit your space

Norlock Panel dividers give each dog his own space and can reduce stress. These can be any height, and topped with any style fencing panel, to allow for better air movement and temp control.

Raised Flooring: This is a very popular feature that can be customized to your specs. You choose the height and materials used for flooring.

GentleStep flooring is customizable, you choose the size of the cutouts that work best for your dogs. Have part of the flooring solid, and part of it with cutouts to provide some space with solid footing and resting areas. This is also fully customizable.

GentleStep Flooring can be added in kennel boxes, with slanted flooring below with a drain system. This makes the easiest and fastest wash down!

STAINLESS STEEL KENNEL FRONTS

Durable Construction: Made from 1" square tubing with 16 gauge wall thickness for the frame & bars are 3/8" solid round bars spaced at 2" O.C.

Stylish and Functional: The stainless steel is highly polished and smooth for a superior clean look.

Low Maintenance: Requires minimal upkeep and easy wash-down.

Doors: 24" doors swing 90 degrees out and are equipped with heavy-duty hinges and a bullet latch, shown below.

Custom Sizing: Panels can be tailored to fit any space or enclosure size. Call for help with measuring or any questions.

Powder Coating Available: Choose a powder-coated finish for enhanced appearance and protection.

Available Options:
Upward arches with or without finials above the doors, downward arches, solid lower panels to keep small puppies contained in the whelping area, and feeder cutouts. We are constantly adding and upgrading our options, please call to discuss your needs.

STAINLESS STEEL POWDER COATED KENNEL FRONTS & DIVIDERS

Durable Construction: Made from 1" square tubing with 16 gauge wall thickness for the frame & bars are 7/8" oval bars spaced at 3" O.C.

Stylish and Functional: A very solid panel that's economical and long lasting with the powder coating

Low Maintenance: Requires minimal upkeep and easy wash-down.

Doors: 24" doors swing 90 degrees out and are equipped with heavy-duty hinges and a bullet latch, shown below.

Custom Sizing: Panels can be tailored to fit any space or enclosure size. Call for help with measuring or any questions.

Powder Coated: Choose a powder coated finish color.

Available Options:

Upward arches with or without finials above the doors, downward arches, solid lower panels to keep small puppies contained in the whelping area, and feeder cutouts. We are constantly adding and upgrading our options, please call to discuss your needs.

Note:

Powder Coated Kennel Fronts are designed with oval bars, while non-powder coated Stainless Steel Kennel fronts are as shown on facing page.

ALUMINUM FENCING PANELS

Durable Construction: Made from 1" square tubing with 1 1/8" wall thickness for long-lasting strength.

Stylish and Functional: Designed with 1/2" O.C. vertical spokes 2" on-center and horizontal supports every 2' for a sleek look and reliable structure.

Low Maintenance: Requires minimal upkeep, easy wash-down, making it a great option for pet enclosures.

Doors: 24" doors swing 90 degrees both in and out for easy access, equipped with heavy-duty hinges.

Custom Sizing: Panels can be tailored to fit any space or enclosure size. Call for help with measuring or any questions.

Powder Coating Available: Choose a powder-coated finish for enhanced appearance and protection, at no upcharge.

Dog Bowls: Choose from several options and have your panel built to accommodate feeding and watering.

Aluminum Panels Standard Hinge

Aluminum Panel Standard RWV Latch

ALUMINUM POWDER COATED FENCING PANELS

The powder-coated panels offer the same great features as the aluminum panels above, with the added benefits of a durable, attractive powder coated finish.

Available in a variety of colors, these panels not only enhance the appearance but also add extra protection.

Call today to explore color options and find the perfect fencing panels for your needs!

WELDED 2" X 4" WIRE KENNEL PANELS

Durable Construction: Made from 14 Ga galvanized tubing. Perimeter tubing is 1.315 O.C. Welded wire is spaced at 2"x 4" intervals with hot-dipped galvanized wire. All welds are sprayed with cold galvanized paint. Very durable if properly maintained.

Maintenance: Conduct regular inspections of the welded wire mesh and address any signs of damage or wear promptly. Applying rust-resistant paint or coatings as needed can help protect the mesh from the elements

Doors: 24" doors swing 90 degrees both in and out for easy access, equipped with welded on hinges, and bolt on butterfly latches.

Custom Sizing: Panels can be tailored to fit any space or enclosure size. Call for help with measuring or any questions.

Dog Bowls: Choose from several options and have your panel built to accommodate feeding and watering

Standard Butterfly Latch

Welded on Hinges

WELDED 2" X 2" WIRE KENNEL PANELS

Durable Construction: Made from 14 Ga galvanized tubing. Perimeter tubing is 1.315 O.C. Welded wire is spaced at 2"x 4" intervals with hot-dipped galvanized wire. All welds are sprayed with cold galvanized paint. Very durable if properly maintained.

Maintenance: Conduct regular inspections of the welded wire mesh and address any signs of damage or wear promptly. Applying rust-resistant paint or coatings as needed can help protect the mesh from the elements

Doors: 24" doors swing 90 degrees both in and out for easy access, equipped with welded on hinges, and bolt on butterfly latches.

Custom Sizing: Panels can be tailored to fit any space or enclosure size. Call for help with measuring or any questions.

Dog Bowls: Choose from several options and have your panel built to accommodate feeding and watering

Perfect Fit: Our fencing panels are fully customized to your needs. To ensure the perfect fit, we recommend calling to discuss options and measurements.

We offer honest advice based on our experience and customer feedback, with no pressure or unnecessary upselling.

CHAIN-LINK KENNEL FENCING PANELS

Durable Construction: Made from 1.315in, 16 Ga galvanized tubing with .065 thickness. Standard Chain-link is made 11.5, 2.25" mesh with two coats of paint. First coat is cold galvanized paint with a top coat of metallic silver. For large aggressive dogs we recommend upgrading to our 9Ga. mesh.

Maintenance: Low maintenance

Doors: 24" doors swing 90 degrees both in and out for easy access, equipped with welded on hinges, and bolt on butterfly latches.

Custom Sizing: Panels can be tailored to fit any space or enclosure size. Call for help with measuring or any questions.

Dog Bowls: Choose from several options and have your panel built to accommodate feeding and watering

Upgraded Vinyl Coated Chain-Link Fencing

FRAMED-GLASS STAINLESS STEEL KENNEL FRONTS

These glass kennel fronts are perfect for medical facilities, as well as boarding kennels.

Allowing airflow at the top means there is much less risk of cross contamination while still allowing full observation.

The thick double pane glass panels are reinforced with stainless steel frames. This comes with a bullet latch for secure closure.

Front side panels also available for wider kennel spaces. (Shown with Norlock Divider Panels, with stainless steel panel on top for extra security.)

HAPPY PET KENNEL SYSTEMS

A beautiful solution that makes caring for small breeds easier. Tall panels are also available for larger breeds.

Durable Construction: Made from durable plastic poly

Maintenance: Low maintenance, easy wash down

Doors: Several options on door design. Can swing out, or hinge down to lay flat.

Custom Sizing: Panels can be tailored to fit any space or enclosure size. Call for help with measuring or any questions.

Dog Bowls: Choose from several options and have your panel built to accommodate feeding and watering

Colors: Cream, Turquoise, Weatherwood, Gray and Raspberry.

NORLOCK[®] KENNEL DIVIDERS/PANELS

NorLock by Trusscore divider panels are the perfect solution for creating strong, low maintenance partitions in dog kennels.

Designed to handle heavy use, these durable planks are easy to clean, abuse-resistant, and can even support items fastened directly to them.

Superior Strength: Built to handle heavy-duty use and withstand impact. Able to structurally support heavy items directly affixed

Easy to Clean: Non-porous, smooth surface makes cleaning quick and simple.

Low Maintenance: Resistant to wear and tear, requiring minimal upkeep. UV stabilizers prevent discoloring and cracking

Heavy-Duty: Engineered to withstand demanding environments like dog kennels. No external support necessary.

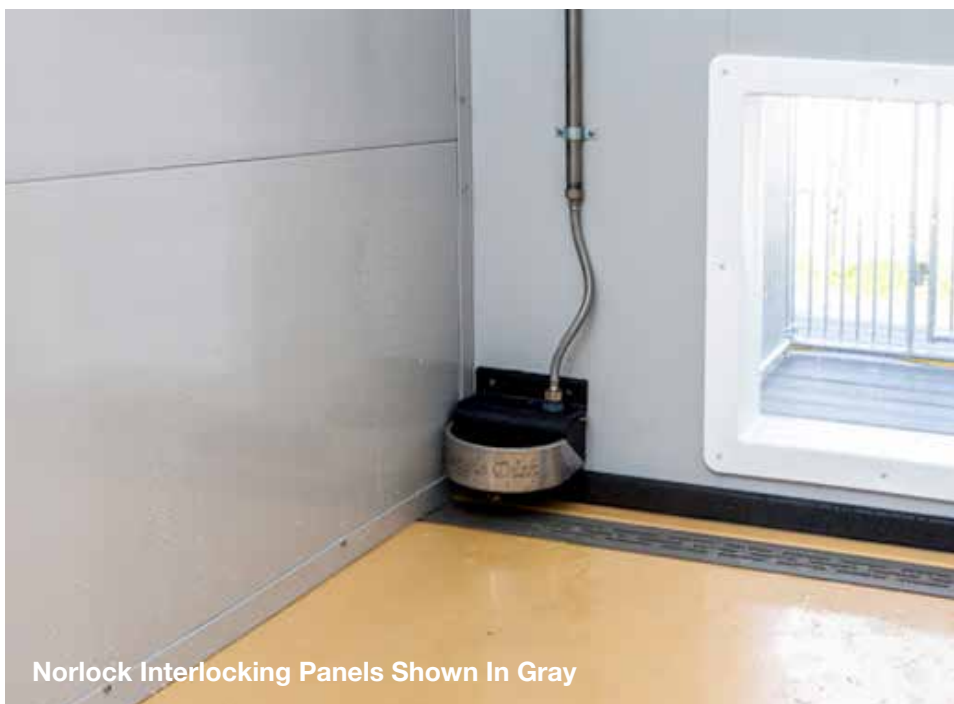

Versatile: Openings can be cut directly into NorLock

Colors: White or Gray

Environmentally Sustainable:
100% recyclable

Norlock Interlocking Panels Shown In White

Norlock Interlocking Panels Shown In Gray

Norlock Interlocking Panels Shown In White

KENNEL RUN CEILINGINGS

Shield your dogs from rain, snow, hail and direct sun. Keep their outside space accessible to them at all times.

Maintenance: Duratemp makes a very long lasting and easy to clean solution. Staff can clean, and interact with the dogs in all weather.

Cooling: Reduces the risk of heat stroke.

Protection: Keeps mud, standing water and snow out of dog runs. Protects your run flooring - making it last much longer

Professional: Sets your kennel and dog care at a higher level - impressing clients and showing your commitment to animal welfare

Available Options: Can also be built with vinyl ceiling soffit as shown in bottom picture. This can cost less, but will be time consuming to keep clean.

WELDED WIRE KENNEL BOX CEILING

Security: Adding a welded wire ceiling to your kennel box prevents dogs who can climb and jump from escaping. It also adds security in keeping other animals which can climb getting in. When theft is a concern, this adds another level of security.

Ventilation: Welded wire allows full air circulation, which reduced odors and helps regulate temperatures.

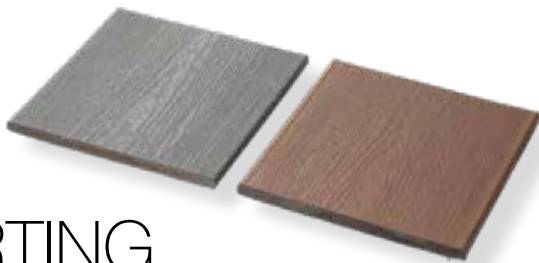

FLOORS

SPICK DRAIN

With the Spick Drain system, cleanup is quick and hassle-free. Just turn on the valves to start the water flow, pop off the covers, and spray everything toward the drain.

The sloped floor guides water and waste straight into the stainless steel Spick Drain, which is also angled for fast, efficient drainage. From there, everything is carried out to the external waste line—leaving your kennel clean with minimal effort.

SKIRTING

1/2" x 12" x 12'

COMPOSITE DECKING

EXTERIOR WASH DOWN DRAIN

Requires Raised Floors Inside and Out.

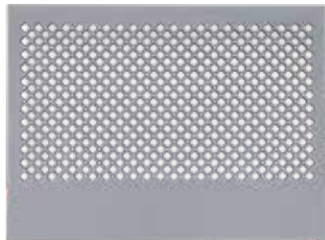

RAISED FLOOR

The Raised Floor Option Enables You to Use a Wire Run Floor With a Wash Down Underneath for Cleaner Kennels, and Also Allows for Heat Under the Indoor Kennels for Whelping.

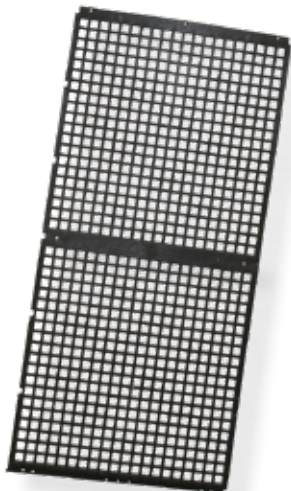

GENTLESTEP KENNEL FLOORING

This kennel flooring is made from King's Starboard and is designed for maximum durability and heavy duty use, ensuring long-lasting performance. Versatile options allow you to tailor the design to your specific needs. You can choose custom proportion of the surface you wish to have as well as holes versus solid areas, with custom hole sizes tailored to your litter.

VERSA PAD FLOORING

Great Option for Exterior Kennel Runs for small dogs. This is a snap together product, so there are cracks where the pieces come together. VersaPad flooring comes in one size sheet and one size hole, no custom sizes available. This is a lightweight product and only recommended for small breed dogs.

DOG DOORS

SOFT CLOSE CANINE DOG DOOR

with Dual Swing Hinges

Easiest door for dogs to learn how to use! Both directions just need a nudge.

Ideal for boarding kennels, rescues and hospitals.

Durable: Built heavy duty.

Noise Level: Lower stress with a quiet closing door.

Warranty: 2 year warranty and all parts are individually replaceable.

PLEXIGLAS SOFT CLOSE CANINE DOG DOOR

Allows light in kennel the translucent panel allows a soft light into the kennel area.

Durable: Built heavy duty.

Opens: Dog bumps it open when exiting & uses the flange to nudge it open when entering.

Quiet: Lower the noise level and stress with a quiet closing door noise induced stress levels.

PLEXIGLAS DOG DOOR

The translucent panel allows a soft light into the kennel area.

Durable: Built heavy duty.

Opens: Dog bumps it open when exiting & uses the flange to nudge it open when entering.

Noise Level: We recommend adding a Kwiet Close (not included) to reduce noise induced stress levels

DELUXE DOG DOORS

with 2- Way Hinge

Easy Dog Door: Both directions just need a nudge.

Noise Level: We recommend adding a Kwiet Close (not included) to reduce noise induced stress levels

PET SAFE DOG DOOR

Allows Light In Kennel The translucent panel allows a soft light into the kennel area

Durable: Aluminum frame with flexible flap which is attached at the top

Opens: Dog nudges the flap which is secured in place with a magnetic strip at the bottom.

Noise Level: ?No noise

Replacement flaps available

ALUMINUM DOG DOOR

Solid aluminum panel does not allow light in kennel.

Durable: Built heavy duty.

Opens: Dog bumps it open when exiting & uses the flange to nudge it open when entering.

Noise Level: We recommend adding a Kwiet Close (not included) to reduce noise induced stress levels

ACCESSORIES

GUILLOTINE DOG DOOR MANUAL OPEN/CLOSE

If you need to lock your dogs in at night, or keep them out while cleaning, this is the door for you. Aluminum slides and door, uses a pulley with a metal cable and door snap latch to secure door at desired location.

The snap secures at front of kennel panel for easy access.

PLASTIC MOLDED DOG HOLE TRIM

Accommodates wall thickness anywhere from 3.5" to 6".

Available in white or weatherwood.

STAINLESS STEEL ADJUSTABLE TRIM KITS

Available in 2 wall thickness sizes: 4.5"-8.5" Wall, and 8.5"-10" Wall

EXTRA DEEP PLASTIC MOLDED ADJUSTABLE DOG HOLE TRIM

Accommodates wall thickness 3" - 12". Can be trimmed for depths less than 9.5".

Available in weatherwood only.

KWIET KLOSE

Cut the Noise and reduce the stress on your dogs! A great solution for keeping the whelping area quiet. Attaches to door trim and keeps dog doors from slamming.

TRAINER DOOR STOP

For use on deluxe and plexi door. Keeps the door ajar just a bit to help dog learn how to open door.

DOG DOOR LOCKS

Manually installs in door trim to allow you to lock your dogs in or out.

WEANING CAGES

These puppy cages are an economical way to keep your puppy's safe, and easy to keep a close eye on while weaning.

Sizing:

Single: 30" x 48" x 28"

Double: 30" x 48" x 56"

Triple: 30" x 48" x 84"

Litter: 30"x 48"

ALUMINIUM WEANING CAGES

Powder Coating: Available with a powder-coated finish at no extra charge.

Frame: Lightweight yet sturdy construction for ease of handling and durability.

Modularity: Purchase one or multiple cages and stack them as needed.

Portability: Disassembles easily to ensure quick and easy setup.

Litter Pan: Made of watertight Versatex, it slides out smoothly and is easy to clean.

Tenderfoot Flooring: Completely custom with solid areas and hole opening options, and very easy to remove for cleaning.

Custom: Choose your size and features, allowing for tailored solutions.

VERSATEX HEAVY DUTY LITTER TRAY

Very easy to disassemble to move through small spaces. Remove eight screws and the whole cage comes apart.

GUEST RESTROOM

Save steps and add a major convenience and time saver - with a restroom. This practical upgrade is crucial when the kennel is set apart from your main building.

Let's discuss how we can add one to your new puppy kennel!

VEVOR DOG GROOMING TUBS

Durable Construction: Made from high-quality 304 stainless steel, making it corrosion-resistant.

Convenient Door Designs: These tubs have either a sliding door, or a hinged door with a seal to create a non-leaking tub. Have your door open left or right.

Adjustable Floor Grate: The included floor grate is easily adjustable to accommodate different-sized pets, keeping them elevated to the ideal height.

Pre-Installed Drain System: The grooming tubs feature a pre-installed drain kit with a removable strainer, making it easy to remove hair and debris without clogging the plumbing.

Anti-slip Surface: The tubs surface has an anti-slip design, keeping pets stable during grooming and reducing the risk of accidents.

Guards: High splash guards prevent water from spilling out during grooming, keeping the surrounding area dry and reducing cleanup.

Accessories and Attachment Points: These tubs include leash hooks, bars and/or other attachment points for securing pets during grooming, ensuring safety and stability.

Steps & Ramps: The Vevor Grooming & Bathing tubs have either steps or non-slip ramps to make getting your dog in and out of the tub easy and safe. All of our steps and ramps are easy to slide under the tub, so it's out of the way when you are grooming.

Options: The Vevor tubs have varying options per table, such as which side you want the door on, and what type of ramp or step you need.

PUPPY SPA STATION

Made with PVC to be durable and easy to clean. Equipped with sprayer faucet, slatted flooring to avoid standing water, and dual dryers with strategic placement for air circulation to dry the puppies quickly and easily. Need to dry a specific spot or drying a dog instead of a puppy? Simply pop out the hose and attach the a nozzle attachment needed and the tub keeps them contained while you dry and brush them. Getting those pups ready to meet their family doesn't need to be a dreaded task!

Shown is slatted flooring, and dryer hose attachment. Other attachment is on facing side and to the back to create circular air flow

Comes with dual dryer system with six attachments. Dryers are portable and can be stowed behind the doors, or used independently for detailed drying use

BUILT-IN GROOMING TUBS

These are custom built to your needs and to fit the space available.

HIGH QUALITY ALUMINUM CABINETS

Easy to clean, powder coated, non-corrosive, durable, pest resistance, soft-close hardware, heavy duty shelf supports.
